ELIS
LULJA

elis.lulia@gmail.com ·

I'm a network engineer based in Italy.

I like the internet and everything that concerns it: Web Development, Network Programming, Routers & Switches (currently studying for my CCNA), Cloud computing and experiment with new technologies. I love to learn new things, even things that have nothing to do with computer & network engineering.

I have a very good attitude at team work: I like to learn from others and help others to learn as well, even though sometimes I am too stubborn in wanting to fix things by myself :)

EXPERIENCE

2019
DEVELOPER, POLYCUBE NETWORK

As part of my thesis in Network Engineering, I contributed to the *Polycube Network* framework for Kubernetes by developing the automatic security functions. Features include automatic discovery and protection of pods,

reaction to events and firewall managing. All according to network policies deployed by the network administrator. https://github.com/SunSince90/polycube

2018 - 2019
FULL STACK DEVELOPER, BUKURIA

Created the *Bukuria* application, the official application of the beauty salon *Bukuria*, in Italy.
Customers can book and manage their appointments with the beauty shop, and receive promotions about the services they like. Application is available in the Google Play Store and is going to be released in the Apple Appstore soon.
https://play.google.com/store/apps/details?id=org.nativescript.bukuria

2018
FULL STACK DEVELOPER, LIBRE

Developer in the *MAD24 Team*. Developed a book sharing application for the Mobile Application course. My contribution included the creation and design of the user profile and a real time chat.
https://github.com/SunSince90/Libre

2017
FULL STACK DEVELOPER, FILESHARE

Developer of *FileShare*, a university LAN file sharing application for Windows 8 & Windows

10, written in C# (WPF based), focused on speed and privacy. https://github.com/SunSince90/FileShare

2013 – 2015

FOUNDER & DEVELOPER, COMPILIST.CO

Founder of a self-funded Startup focused on lists and aggregators of web trends (similar to *BuzzFeed*). Users could create their own lists and share it on all social media applications, receiving a payment from ads campaigns based on their articles viewing counter. Currently suspended

for lack of funding.

2009 – 2016
FOUNDER & DEVELOPER, IPBLOUNGE.COM Developer of paid third party applications for the Bulletin Board & Community software *Invision Power Board.* The most popular – *Applications System*, focused on letting user apply to get inside a club, a job or anything the administrator wanted – was elected *Featured App of The Month* for 3 times.

EDUCATION

2016
 POLYTECHNIC UNIVERSITY OF TURIN
Bachelor degree in Computer Engineering.

2009
 LICEO SCIENTIFICO CASSINI
Diploma di liceo scientifico.

SKILLS

- C, C++ 2011, C#, Java, Javascript, GO, Kotlin, PHP
- NativeScript, Angular, React Native
- Laravel
- Amazon Web Services , Google Firebase
- Kubernetes

ACTIVITIES

I love reading books, gym training, discover music genres which I thought I would never like and learn to do things that can improve what I am. I also like a good drink at night while talking with friends about any topic.
